

TEAM HIGH-FLIERS'

# Milan App

PROGRESS TILL NOW

- User authentication by email using Firebase
- Taking Interests of the User
- Created Interests, Anonymous and Restricted Section Interface
- Implemented Interests section
- Creating new Room in the Interests Section is done

# Features to Add next

## MAKING USER COMPLETELY ANONYMOUS

When a user joins in any room in the anonymous section or creates one we have to make the identity of the user completely anonymous.

## IMPLEMENTING FEATURE TO RESTRICT ABUSIVE CONTENT

If a user uses any kind of foul language while being in a Restricted room then we have to warn the user or to remove him/her from the room.
